Price List of Gladioli Bulbs for 1921

I Grow gladioli blossoms for the trade. The bulbs I am offering are the surplus more than I shall need for the coming season. My aim has been to grow only a few varieties, and only those with large beautiful blossoms, suitable for the home or exhibition. I have none of the small blossomed varieties on the place.

The soil here at Oakhurst is well suited to growing gladioli bulbs, and I see no reason why I cannot furnish you with as well grown and strong bulbs as anyone, and if you favor me with an order, shall give it personal attention and try to please. In eleven exhibits the past season, I won silver cup for best display, nine firsts, one second, and one special. I have made my prices as low as is consistent with first class well grown stock.
